

# HELP PROTECT THE WOODLANDS, MARSHES, BEACHES, MEADOWS AND WILDLIFE HABITAT OF BREWSTER

## WHAT IS THE BREWSTER CONSERVATION TRUST AND WHAT HAS IT ACCOMPLISHED?

The Trust was established in 1983 to acquire, manage and support the preservation of open space in Brewster... including its beaches, marshes, meadows, woodlands, wetlands, aquifer and wildlife habitat.

The Trust is a private, non-profit, charitable organization supported by memberships and donations.

The Trust accepts ownership of donated land insuring that it will be preserved in its natural state forever; works with landowners to implement conservation restrictions on their land, thereby eliminating development; and occasionally purchases land at discounted prices.

The Trust currently owns or holds conservation restrictions on xx parcels adding up to over 400 acres of protected land in Brewster.

## HOW YOU CAN HELP...

- ❑ Become a member of the Trust and make a financial contribution. You become a supporting member of the Trust by filling out the form in this brochure and mailing it with your donation.
- ❑ Volunteer your time to help in a Trust project.
- ❑ Donate land to the Trust insuring that it is preserved forever.
- ❑ Grant the Trust a conservation restriction on all or part of your property. It will be protected in perpetuity while maintaining most of your benefits of ownership.

All cash donations are tax deductible. Land gifts and conservation restrictions offer the potential for significant estate, property, and income tax savings.

Your contributions help ensure that Brewster will always maintain its natural beauty and character.

### WHY IS TIME IMPORTANT?

For many years Brewster was one of the Cape's most rural towns. Today it is one of the fastest growing. Woods, fields and shores are changing into roads, houses, and condos at an invreasing rate. There isn't much time left. The land will be built out or preserved within the next twenty years.

Your donations are vital to help with many costs associated with land donations, obtaining conservation restrictions, purchasing land, maintaining properties, as well as administrative and educational activities. Please help before it is too late.
